Dairy Export Health Certification Process

1

Exporter ensures that the product complies with the requirements of the GB certificate.

2

FBO submits Part I application for the Export Health Certificate (EHCs) on TRACES.

3

FBO sends notification e-mail to the dedicated Milk Policy Division (MPD) email address notifying them of the application.

The email must include:

- FBO point of contact details.
- The certificate numbers/ a direct link to the certificate.
- Estimated date & time of departure.
- List of documentation attached to TRACES application.

4

Inspectors carry out the necessary technical and regulatory checks

5

If the checks are passed EHC is approved.
Certifying Officer eSigns the EHC and the EHC is eSealed.

6

Digitally signed document is then available to be transmitted to IPAFFS.
