Application for licence to manufacture and market liming materials

(See Annex attached)

Please complete form with due care and return to:
Feedingstuffs, Fertilisers, Grain and Poultry Division
Department of Agriculture, Food and the Marine,
Backweston Campus,
Administration Building,
Celbridge, Co. Kildare,
Ireland

(i) Marketing of Non – EEC Fertilisers SI 248/1978 ☐

(ii) Marketing of EC Fertilisers – EC Regulation 463/2013 ☐

I/We _____

Hereby apply for a licence under of the above-mentioned Regulations to manufacture liming materials at:

Address: _____

_____

Phone: _____

Mobile: _____

E-mail: _____

Liming materials to which the following particulars relate:

1. Lime Quality

(a) Total Neutralising Value _____

(b) Particle sizes

Percentage passing through sieve size (mm)

(i) _____% Size (mm) _____

(ii) _____% Size (mm) _____

(iii) _____% Size (mm) _____

(iv) _____% Size (mm) _____

(c) Maximum moisture content _____

(d) Total Calcium (%) (Reg 463/2013 only) _____

(e) Total Magnesium (%) (Reg 463/2013 only) _____

2. List of Manufacturing Machinery:

(a) Make _____

(b) Model _____

(c) Production capacity _____

3. Covered Storage Capacity

Area and capacity of roofed storage for finished product:

Area (sq m) _____ Storage Capacity (tonnes) _____

4. Quality Control

Proposed annual sampling and analysis programme to ensure accurate statements of total neutralising value, particle size and determination of moisture content.

_____

5. Planning Permission

Local Planning Authority: _____

Has planning permission been applied for? Yes No

If 'Yes' has it been granted? Yes No

Food and the Marine

I/We certify that the foregoing particulars are in all respects correct to the best of my/our knowledge and belief.

Signature _____ Date _____

_____ Date _____

Office Address _____

_____

State whether Proprietor, Chairman, Manager, Secretary: _____

Annex

Conditions and Accompanying Documents:

The application form above should be completed by the applicant and returned to Feedingstuffs, Fertilisers, Grain and Poultry Division at the address below.

Two copies of an Ordnance Survey map of the proposed site must be forwarded with the application.

Following receipt of the completed application form and maps, the local DAFM officer will inspect the site, storage facilities and production equipment.

The DAFM officer will arrange with the manufacturer to take samples from test drill bore-holes in the proposed site.

The samples taken from the bore-holes will then be analysed by the State Laboratory for lime content and quality – i.e. total neutralising value. In the case of an application under Regulation 463/2013, total carbon and magnesium content will also be analysed.

Sales figures should be submitted monthly to AnnL.Murphy@agriculture.gov.ie. These are used to inform policy decisions and to produce national usage statistics.

Once all the conditions outlined are deemed satisfactory, the Department will issue a licence to the applicant.

Please forward completed application form and accompanying documentation to:

Feedingstuffs, Fertilisers, Grain and Poultry Division
Department of Agriculture, Food and the Marine,
Backweston Campus,
