

APPENDIX 10A PHOTOGRAPHIC RECORD

Plate 10.1 Aerial view of proposed works location, looking east

Plate 10.2 River Deel, looking west at west end of proposed scheme

Plate 10.3 Field 1, at centre between the road and river, looking southwest

Plate 10.4 Field 1, looking northwest

Plate 10.5 Road crossing between fields 1 and 2, looking southeast

Plate 10.6 Field 2, at centre, looking southeast

Plate 10.7 South end of field 2 on line of proposed channel, looking east (May 2020)

Plate 10.8 Field 3 at centre, looking southeast, only south end of this field will be impacted by proposed works

Plate 10.9 South end of field 3, looking northeast

Plate 10.10 East end of field 4 (to be impacted by proposed works), at centre, looking south

Plate 10.11 Boulders within east end of field 4, looking southeast

Plate 10.12 Townland boundary within field 4, looking southwest

Plate 10.13 Eastern portion of townland boundary at centre of frame, looking east

Plate 10.14 Western portion of townland boundary at left of centre of frame, looking west

Plate 10.15 Southern portion of field 5 at centre, looking west

Plate 10.16 Southern portion of field 5, looking northeast

Plate 10.17 Field 6 at centre, looking south, townland boundary at bottom of frame

Plate 10.18 Field 6, looking south

Plate 10.19 Enclosure (CHS 1; MA038-159----) above centre of frame, looking southwest

Plate 10.20 Enclosure (MA038-159----) above centre of frame, field 6 to left of frame, field 1 to right of frame and townland boundary crossing from bottom left corner towards centre of frame

Plate 10.21 South end of field 7, looking south, townland boundary crossing centre of frame, ridge and furrow cultivation evident as crop marks within field

Plate 10.22 south end of field 7, looking east

Plate 10.23 Field 8, right of frame, disturbed by ongoing works, looking west

Plate 10.24 South end of field 8. looking west (May 2020)

Plate 10.25 Road crossing between fields 8 and 9, looking south

Plate 10.26 Field 9 at centre of frame, looking south

Plate 10.27 Field 9, looking northeast (May 2020)

Plate 10.28 Road crossing between fields 9 and 10, looking east (May 2020)

Plate 10.29 Field 10 at centre, looking south

Plate 10.30 Field 10, looking south (May 2020)

Plate 10.31 Field 11 and beginning of washlands at centre of frame, looking south

Plate 10.32 Field 11, looking south (May 2020)

Plate 10.33 Washlands to the east of proposed diversion channel, looking southeast

Plate 10.34 East end of washlands, looking southeast

Plate 10.35 Mill complex at bottom right of frame with washlands to east, looking southeast

Plate 10.36 Heavily overgrown mill complex at centre, looking southwest

Plate 10.37 Freestanding building at north end of mill complex, looking northeast

Plate 10.38 Northernmost structure of north/south range in mill complex, looking west

Plate 10.39 Central structure in north/south range of mill complex, looking southwest

Plate 10.40 Free standing building to the east of the main mill at left, north/south range to right, looking south

Plate 10.41 Mill stone within central building in north/south range

Plate 10.42 Water filled channel within central building in north/south range, looking southwest

Plate 10.43 Mill stone within main mill building, at south of north/south range

Plate 10.44 interior of southern portion of southern building in north/south range, looking northeast

Plate 10.45 Two water filled mill races within northern portion of southern building of north/south range, looking north

Plate 10.46 Mill race emerging from beneath north end of southern building in north/south range, looking west

Plate 10.47 Mound of demolition rubble at site of lime kiln shown on 25-inch OS map, looking south towards north/south range of mill complex

Plate 10.48 Mill race and stream at south of mill complex (overgrown at centre of frame), looking northwest

Plate 10.49 Proposed works area looking west from east end

Plate 10.50 Road to the east of the proposed river flow control system, looking south (river to right of frame)

Plate 10.51 Site of proposed access point to the west of the proposed river flow control system, looking north (river to right of frame)

Plate 10.52 View of site of proposed river flow control system looking south

Plate 10.53 Western bank of river at site of proposed river flow control system, looking west

Plate 10.54 Overgrown eastern bank of river at site of the proposed river flow control system, looking east

Plate 10.55 View of bank at the site of the proposed weir, looking east

Plate 10.56 View towards proposed weir from adjoining garden (F1), looking northwest
